WEBSITE ADVERTISING

The new *Granta* website uses a module design that can be used to present advertising in a varied but clear manner.

Visual guide to online sizes (Not actual size)

Leaderboard ad

728 × 90 pixels - \$9 cpm

Shown at the top of all pages (including mobile devices). The maximum width of these adverts is 728px with a height of 90px. These adverts automatically scale proportionally to the screen size so that they always fit on the screen when it is less than 728px in width. For example, because the iPhone has a screen width of 320px the advert is shrunk to this width so that it displays correctly.

MPU - Medium rectangle ad

400 × 325 pixels - \$7 cpm

This is the same aspect ratio of MPU adverts 300 × 250 pixels but higher quality

Ad shuffles between two modules on the home page and appears on the right-hand side of article pages

Half page ad

400 × 800 pixels - \$9 cpm

This is the same aspect ratio of standard adverts 300 × 600 pixels but higher quality

Appears on the right-hand side of article pages only

The MPU ads are shown 1/3 width on the home page and in the right hand column of the article pages. They appear at a width of 385px on the homepage and 320px on the reading pages on a full-sized display.

Adverts always scale proportionally to the size of the reader's screen. On devices that are too small to show the full width of the page, the modules shrink or stack so that everything continues to display clearly.
